

Hello, Happy National Hedgerow Week!

Thank you so much for helping us share National Hedgerow Week 2024. We've been overjoyed by the level of interest from libraries up and down the country, and hope that this pack will help you share the wonders of hedgerows this May!

We think that hedgerows are amazing. Our British landscape is shaped by thousands of miles of hedge; providing wildlife with a sheltered and bountiful highway network; protecting agriculture, whether livestock or crops; creating living boundaries in our towns and cities; and bringing greenery, capturing carbon, and delivering more than a little beauty to our rail lines and roadsides. But they need our help! While the government's Environmental Improvement Plan has set ambitious targets to create 45,000 miles of new or restored hedgerow by 2050, there is still a long way to go. Speaking to new people about just how amazing our hedgerows are is one part of the solution, so thank you for helping us do that.
